

# MS35

## External siren horn

### Description

MS35 is a simple and cost effective external siren module for residential and commercial burglar alarm system. It's stable design is ideal for consistent performance for years to come.

### Specification

Housing material	ABS
Housing color	Light gray / Black
Voice coil impedance	8 ohm, 20W (at 1 khz)
Voice coil dimension	Φ 59 mm (diameter)
Rated voltage	12 VDC
Range voltage	11 - 13 VDC
Common S.P.L	115± 2 dB (at 1 meter, 12VDC warble)
Current draw	1.35A max (at 12VDC)
Operating temperature range	-10 to +70 °C
Wires connection	Red (+) - 12V DC Black (-) - GND
Case dimension	Length = 15 cm. Diameter of horn = 13cm
Equipment net weight	430 gram
